MedManagement, LLC Announces Installation of QualityConnectMD in Six (6) Medical Practices

Birmingham, AL, September 1, 2004 - MedManagement, LLC announced today that QualityConnectMD, its new generation practice management system, has been successfully installed in six physician practices in Alabama in July and August.

"The implementation of QualityConnectMD in these practices will improve overall operations, speed reimbursement, and enhance staff productivity", according to Kim Mitchell, Director of Account Services for MedManagement.

Practices that have recently installed QualityConnectMD include: Tuskaloosa Internal Medicine, LLC, Center for Pain of Montgomery, Southeast Cancer Network, Seale Harris Clinic in Birmingham, North River Medical Center and Gastroenterology Associates, PC of Montgomery. An equal number of installations are scheduled for September and October according to Ms. Mitchell.

"The rapid growth of QualityConnectMD is attributable to an excellent product, satisfaction of our current customers and a responsive and dedicated technical support team at MedManagement. We are fortunate that our customers are helping us to spread the word about the advantages of QualityConnectMD", stated Gary Glenn, CEO of MedManagement, LLC.

QualityConnectMD currently ranks at the top of the Blue Cross and Blue Shield's Functionality Matrix. The matrix may be found by accessing www.bcbsal.org and following "I am a Provider", "Provider Resources", Electronic Data Interchange" then "Physician Vendor Functionality Matrix".

About MedManagement, LLC

MedManagement, LLC, founded in 1995, is a diversified healthcare company and a leader in providing medical practice solutions. In addition to offering QualityConnectMD, MedManagement offers QualitEscribe, a web-based Electronic Dictation Management System that reduces transcription costs and improves convenience and accessibility through electronically stored notes.
