QualityConnectMD Receives Claredi Certification of HIPAA-Compliant Transactions

Birmingham, AL - - January 10, 2003 - -

QualityConnectMD, a division of Medmanagement, LLC, recently received certification from Claredi Corporation (the leading provider of HIPAA EDI compliance testing and certification services) for professional claim transactions, claim status request and claim status response transactions generated by QualityConnectMD.

This certification provides independent confirmation for QualityConnectMD clients that the product is able to generate transactions that satisfy HIPAA Implementation Guide requirements.

Claredi is a third-party HIPAA transaction certifier with the tools to greatly simplify testing that healthcare providers, insurance providers, and clearinghouses must perform to meet HIPAA EDI requirements. Their exclusive certification process saves clients time and money by quickly certifying compliance. Learn more about Claredi at www.claredi.com.

“Certification by Claredi is an integral part of our ongoing HIPAA-compliance plan. We are pleased to reach this important milestone,” stated Gary Glenn, MedManagement, LLC’s chief executive officer. “The ability to provide our clients with the tools necessary to generate HIPAA-compliant transactions is a top priority for our company and I am pleased to announce that QualityConnectMD is one of the first Alabama based companies in its field to offer its clients the assurance that comes with Claredi certification.”

About QualityConnectMD
